CAREER OBJECTIVE

Aspiring Software Developer with strong foundations in MERN stack and machine learning, seeking an entry-level role to build scalable web applications and intelligent systems.

EDUCATION

B. Tech – Information Technology

Thiagarajar College of Engineering, Madurai

2023 – 2026 | CGPA: 7.2

Diploma - Computer Engineering

Tamil Nadu Government Polytechnic College, Madurai

2021 – 2023 | Percentage: 92.4%

SECONDARY SCHOOL LEAVING CERTIFICATE (SSLC)

Amudham Matriculation Higher Secondary School, Madurai

2018 | Percentage: 87.6%

TECHNICAL EXPERTISE

Languages: Java

Frontend: HTML, CSS, React.js, Bootstrap

Backend: Node.js, Express.js

Database: MongoDB, SQL, Oracle

Tools: Git, GitHub, VS Code

CERTIFICATIONS

Completed AWS Academy Graduate – Cloud Architecting certification from Amazon Web Services Academy

PROJECTS

1. Cyberbullying Detection using Transformer-Based Model

- Developed a text classification system to detect cyberbullying in multilingual and code-mixed content
- Identified abusive language, slang, and harmful expressions using NLP techniques
- Classified messages into severity levels (Low, Medium, High)
- Analyzed patterns in offensive content to improve detection accuracy
- **Technologies:** Python, DistilBERT, Random Forest, Flask.

2. Diabetic Retinopathy Detection using Hybrid CNN

- Implemented a hybrid CNN model combining ResNet50 and InceptionV3 for feature extraction.
- Applied image preprocessing techniques including normalization and data augmentation.
- Achieved 96.85% classification accuracy on the test dataset across multiple severity levels.
- Contributed to model training, testing, and performance evaluation.

3. Personal Portfolio Website

- Designed and developed a responsive personal portfolio using HTML and CSS
- Showcased projects, skills, and contact information
- Deployed using GitHub Pages for public access
- Technologies: HTML, CSS, Bootstrap
- Live Website: <https://rams3014.github.io/my-portfolio/>
- Source Code: <https://github.com/Rams3014/my-portfolio>

INTERNSHIP

Raiden Studios – VR Game Development Intern

May 2024 – June 2024

- Developed interactive VR features using Unity to enhance immersive gameplay experience
- Collaborated with team members to design and implement core game mechanics
- Contributed to module development and ensured timely delivery of assigned tasks

ACHIEVEMENTS & ACTIVITIES

- Served as Team Leader during internship, coordinating tasks and ensuring successful project delivery within deadlines
- Active contributor in TCE Coders Club, conducted coding sessions and participated in technical activities
